

OUTBREAK! 2020

WHAT IS IT?

Outbreak! offers high school students exposure to different branches of public health. Students are immersed in a range of public health topics, participate in interactive research activities, explore public health career choices, and develop leadership skills.

HOW DOES IT WORK?

Interactive sessions will run August 10th-21st hosted by public health professionals. Students have a mix of interactive live Q&As, flipped classrooms and collaborative breakout groups.

WHAT WILL I DO?

- Learn how public health impacts your community
- Take a virtual tour of the Public Health Museum and learn the history of public health
- Meet and learn directly from Boston-area frontline public health professionals
- Contribute to the Outbreak! blog and create Instagram PSAs

HOW DO I SIGN UP?

Outbreak! Is free. Click [here](#) to register.
